

# Red alert for the water!

**Since 18th of May it is forbidden to use drinking water for watering in Östhammar's municipality. Everyone needs to help to save water!**

Due to the low level of groundwater it is necessary to save water. Everyone needs to help to save water!

The drinking water should foremost be used for cooking, drinking and hygiene.

- Do not water your garden with drinking water- collect water in rainwater barrels.
- Do not fill swimming pools, paddling pools, spa pools with drinking water- Visit the municipal swimming pool or beach.
- Do not use drinking water to wash building facades, decks, fences.
- Do not use drinking water to wash cars- Go to a car wash that recycles the water!
